# Nurturing a Better Life

# Nurturing a Better Life

**Efobact<sup>®</sup> 1g**  
Cefoperazone Injection I.P. 1g

**Nurturing  
a Better  
Life**

# Stop Bacterial Terrorism... Enhance Better Life

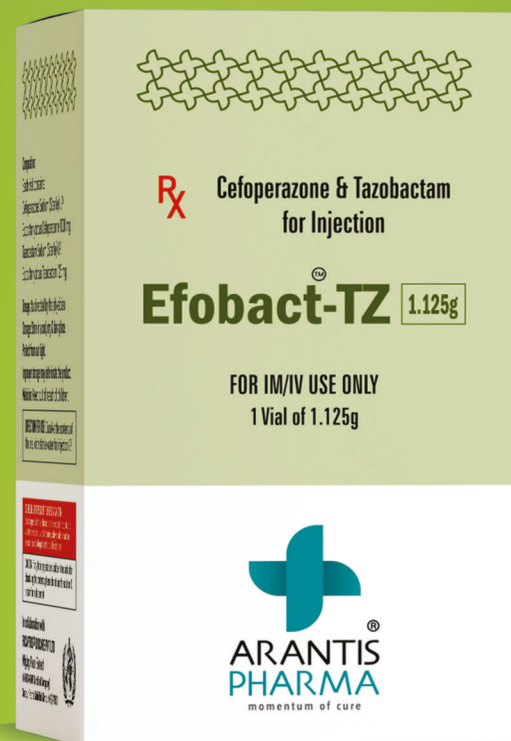

**With our Effective Bactericidal  
Cephalosporin**

- Offers an Excellent Bioavailability In UTI
- The Pharmacokinetics of Cefoperazone in Renal Transplant Recipients Resembles Peak Serum Concentrations  
(Chemotherapy 1985;31:6-12)Doi:10.159/000238307) Cefoperazone Therapy of Complicated Urinary Track Infections: Pharmacokinetics in Real Transplant Recipients)
- Effective Antibiotic in Post Operative Wound Infections and Abdominal Cavity Infections

# Therapy Against Tough Pathogens A Universal Threat

## Synergy of Combination Therapy...

**Efobact-TZ<sup>®</sup>**  
1.125g  
Cefoperazone 1g & Tazobactam  
125mg

**Nurturing  
a Better  
Life**

- **Cefoperazone with Tazobactam has Proven Efficacy than with Cefoperazone and Sulbactam in Urological Tough Pathogens**  
(J Asoc Physicians India, 2012 Nov;60:22-4. Comparative In-Vitro Activity of Cefoperazone-Tazobactam and Cefoperazone-Sulbactam Combination Against ESBL Pathogens in Respiratory and Urinary Infections)
- **P.aeruginosa is More Susceptible to Cefoperazone-Tazobactam than Cefoperazone-Sulbactam in Chest Infections**
- **Klebsiella Pneumoniae that were Resistant to Cefoperazone-Sulbactam were Susceptible to Cefoperazone-Tazobactam**  
(J Asoc Physicians India, 2012 Nov;60:22-4. Comparative In-Vitro Activity of Cefoperazone-Tazobactam and Cefoperazone-Sulbactam Combination Against ESBL Pathogens in Respiratory and Urinary Infections)

# The Right antibiotic for the Right Bug

## Synergy Of Combination Therapy

Cefoperazone-Sullbactam is Effective in treating typhoid fever notably when the pathogen are resistant to Ampicillin or Chloramphenicol. There was no Relapse or treatment failures in the comparative studies

The clinical efficacy of cefoperazone-sulbacatm are comparable to those of comparator drugs in the treatment of febrile neutropenia

(Efficacy and safety of cefoperazone-sulbactam in empiric therapy for febrile neutropenia A systemic review and meta-analysis. Shao-Huan Lan, PhD, a Shen-Peng Chang, PhD Chi-Cheng Lai, MD, c Li-Chin Lu, PhD, d and Hung-Jen Tang, MDe,\*)

**Efobact-SM<sup>®</sup>**  
(Cefoperazone 1 gm +  
Sulbactam 500 mg)

**Nurturing  
a Better  
Life**

# CAP... Tackle The Obstacle Eminently

**Most Potent Drug to Treat This Life Banging Diseases**

**Clarithromycin is Effective and Safe...**

- Good Antimicrobial Spectrum and Pharmacokinetic Profile
- An Ideal Antibiotic for the Treatment of CAP in Both Children and Adults
- Several-Fold More Active than Erythromycin Against Gram-Positive Organisms
- Has a Longer Serum Half-Life and Better Tissue Penetration than Erythromycin

(Recenti Prog Med. 2000 Jan;91(1):12-5. Efficacy and Safty of Clarithromycin in the Treatment of Community-Acquired Pneumonia) (Drug. 1997 Jan; 53(6):973-1004. doi:10.2165/00003495 - 00006. Clarithromycin. A Review of its Efficacy in the Treatment of Respiratory Tract Infections in Immunocompetent Patients).

## Clarintiz<sup>TM</sup>

Clarithromycin 500mg Inj  
(Lyophilized)  
Clarithromycin 250mg Tab  
Clarithromycin 500mg Tab

**Nurturing  
a Better  
Life**

# A Destructive Weapon Towards Nosocomial Pathogens

## Most Effective and the First Synthetic Monobactam Antibiotic

**Ztreonam<sup>™</sup>**

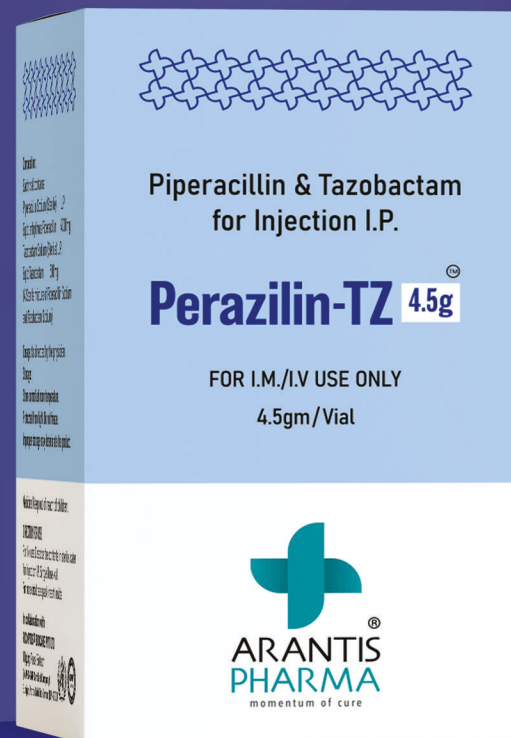

Aztreonam 1g Inj  
Aztreonam 500mg Inj

**Nurturing  
a Better  
Life**

- Efficient than the Third-Generation Cephalosporins, Newer Penicillin Derivatives and the aminoglycosides
- Appears to Cause Less Antibiotic Resistance in Bacteria Colonizing the Intestine
- Effective in Gram-Negative Aerobe Infections
- No Ototoxicity and Nephrotoxicity like Aminoglycosides

**Perazilin-TZ<sup>TM</sup>**  
**4.5g**  
Piperazilin 4gm &  
Tazobactam 500mg

**Nurturing  
a Better  
Life**

# Say Good Bye to Haunted (ICU) Moments

**A Familiar and  
Compatible Weapon**

## Proved To Be An Efficient Molecule

- Intra abdominal and abdominal cavity infections
  - Severe Post Operative Purulent Wounds
  - Cellulitis
  - Diabetic Wound Infections
- 
- Piperacillin-Tazobactam is a More Appropriate Perioperative Antibiotic for Surgical Site Infection
  - Reliable Monotherapy for Patients with High Risk Febrile Neutropenia

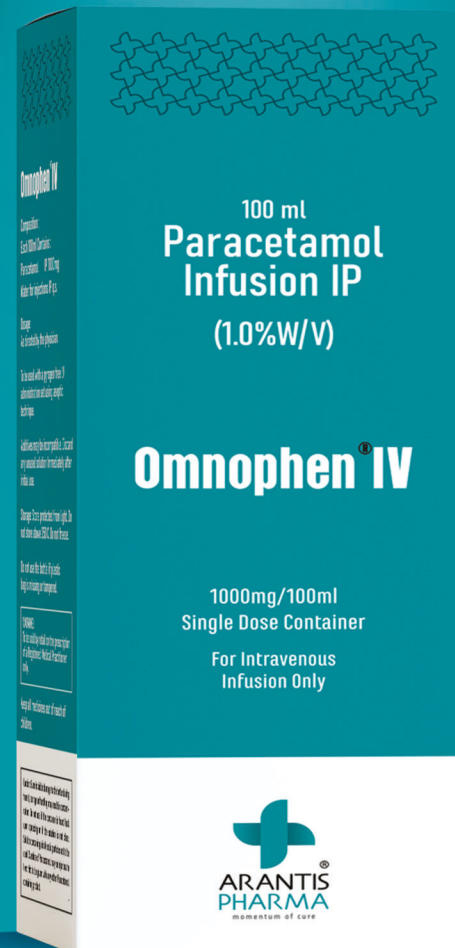

# The Art of Pain Management

## Ideal Acetaminophen IV

- Offers Higher Analgesic Effects and Lower the Need for Postoperative Opioids
- Reaches a High Concentration in the Cerebrospinal Fluid and has an Antinociceptive Effect
- Preferable in Pain Management in Various Type of Surgeries
- Prophylactic Use of IV Paracetamol can Reduce Postoperative Nausea and Vomiting

**Omnophen® IV**  
Paracetamol 1g/100ml

**Nurturing  
a Better  
Life**

# Lindamic<sup>®</sup>

Clindamycin 600mg Inj &  
300mg Capsule

## Nurturing a Better Life

## An Eminent Antibiotic To Treat Super Infection

- Clindamycin is Very Effective Against Skin and soft Tissue Infections
- Bacteria Involved in Polymicrobial Diabetic Foot Infections, Clindamycin is the Most Effective Drug of Choice

Top 10 Antibiotics For Managing Diabetic Foot Infections July 19, 2017 Volume 30 - Issue 8 - August 2017 / podiatry today

- The Most Popular Antimicrobial Offers a Vast Versatile Treatment for Lung Abscesses
- The Intracellular Uptake of Clindamycin and its Stability in Abscess which have Low pH and Poor Vascularity may offer an Added Advantage

1 APRIL 1983 Clindamycin Compared with Penicillin for the Treatment of Anaerobic Lung Abscess

# Otreod<sup>®</sup>

Octreotide Acetate 100 / 50 mcg  
ampoules

## Nurturing a Better Life

## A Potent Inhibitor of Exocrine Secretion

### Remedy Redefined

- Inhibit the Secretion of Exocrine Glands, thus  
Reduce the Rate of Pancreatic Fistula
- Direct Anti-Inflammatory and Cytoprotective  
Effects

**Feroxim<sup>TM</sup>**  
Cefuroxime Axetil 500mg Tablet

**Nurturing  
a Better  
Life**

## Chase The Furious Infection

---

**A Broad-Spectrum  
Antibacterial Agent with  
Convenient Twice- Daily  
Administration**

---

# War on Germs ... The New Approach

(\*EDTA has been shown to remove  $Mg^{2+}$  and  $Ca^{2+}$  ions from the outer cell wall of Gram negative bacteria, thereby liberating up to 50% of LPS molecules and exposing phospholipids of the inner membrane, enhancing the efficacy of Meropenem.)

**MERANTIS-EDTA<sup>®</sup> 1gm**  
Meropenem 1000 Mg  
+ Edta\* 37.5 Mg

**Nurturing  
a Better  
Life**

- Well tolerated, Suitable in complicated infections where other antibiotics are ineffective.
- Low propensity for inducing seizures, the only Carbapenem indicated for Bacterial Meningitis.
- Against Enterobacteriaceae four to sixteen times more effective than Imipenem.
- Eight times more effective than Imipenem in treating Haemophilus influenza and Neisseria gonorrhea.

# The Most Advanced PPI For Acid Regulation

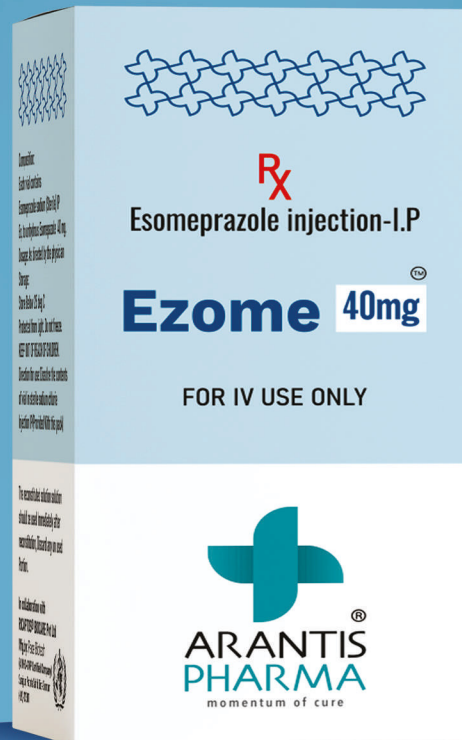

- The First Choice
- Once Daily Dosing
- Safest of PPI's

## The superior PPI

“Five out of 8 studies showed that esomeprazole 40 mg od achieves better healing rates of erosive esophagitis after 4 and 8 weeks of treatment compared with omeprazole 20 mg, lansoprazole 30 mg, or pantoprazole 40 mg od.”

(Kahrilas et al 2000; Richter et al 2001; Castell et al 2002; Fennerty et al 2005; Labenz et al 2005b).

**Ezome<sup>®</sup> 40mg**  
(Esomeprazole 40 mg/vial injection)

**Nurturing  
a Better  
Life**
